

12
conductive via holes going through the unit formed by the first layer and the printed circuit so as to provide for the electrical connection of the surface acoustic wave device from the exterior.--

REMARKS

Favorable consideration of this application, as presently amended, is respectfully requested.

The present Preliminary Amendment is submitted to place the above-identified application in more proper format under United States practice. By the present Preliminary Amendment the specification has been amended to include suggested headings. The claims have been amended to no longer recite any multiple dependencies. A new abstract believed to be in more proper format under United States practice is also submitted herein.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
